Note: The designs on Memory Card #35 (Australian Floral) may vary. When substituting designs, always try to have the pieces touching or part of one design slightly under another.

Hint: While the templates are arranged make a note referencing the order they should be embroidered in. If you have any large gaps once the embroidery is completed simply fill in with smaller flowers.
2. Use the Clothsetter to perfectly position fabric. Attach the embroidery hoop to the machine. Stitch.
3. Sew beads to the vase in even intervals along the pintucks.
4. Have your work of art framed and enjoy in your home.
