## Memory Craft 500E Embroidery Editor

Embroidery Editor allows the user to combine and edit embroidery designs, plan a project, and print templates with the ease of the computer. Designs are simple to write to a USB flash drive or send directly to the 500E via direct connection.

Install Embroidery Editor and USB driver from installation CD on PC. The installation guide and CD are in the original box.

## **Embroidery Editor Introduction Exercise:**

- Launch Embroider Editor from desktop. The program will open to the editing screen.
- 2. Click the drop down arrow by the hoop display bar to view all the hoop options. Select SQ20b.

- 3. Click Design folder Design to access designs in PC.
- 4. Select Design folder.

- Select Favorite Designs.
- Select FAV\_2\_08.jef.

Click Edit tab. All editing functions of the MC500E are available.

- 8. Click Home tab, locate Monogram tools.
- 9. Select Monogram.

10. Click drop down arrow to display all fonts. Embroidery Editor includes 11 fonts!

11. Select Script.

12. Type name.
