

# GrandQuilter

## All features at a glance!

### High sewing speed!

1,600 stitches per minute – no other quilting machine sews faster! Wonderful for stitching large quilts, but also for sewing regular long seams.

### Large working area!

225 x 150 mm (9" x 6")!

No other quilting machine has a larger working area to the right of the needle. Absolutely essential for stitching large quilts or working with thick fabric or heavy materials.

### Large, removable extension table,

600 x 400 mm (24" x 16")

The generous work surface is perfect for sewing and handling large fabrics and it's ideal for working with free-motion quilting.

### German design

GrandQuilter was specifically designed to meet quilters' demands.

### Perfectly adjusted stitches

Thanks to the Automatic stitch control the stitches are perfectly adjusted no matter thickness of fabric.

### Perfect thread tension!

No matter what thread or fabric thickness you are using, the pre tension adjustment will ensure perfect stitches every time.

### Keep your hands on your project – thanks to the knee lift!

When you are working with large pieces of fabric, you can raise and lower the presser foot with the knee lift.

### Needle stays in the fabric!

With just the touch of a button, you can choose to leave the needle in the fabric – perfect for pivoting and handling your quilt.

### Easy cutting of threads!

With a touch of a button both the upper thread and bobbin thread are cut.

### Sew quietly and smoothly.

Even at the highest speed, the GrandQuilter guarantees quiet, smooth sewing - without vibrations!

### Easy bobbin winding with a separate motor!

Wind the bobbin while sewing. The separate motor makes it possible. Winding stops automatically when the bobbin is full.

### Easily selected sewing speed!

Fast or slow – you choose the right speed. Easily adjust the speed control slider.

### Easy reverse!

The large reverse lever can be activated with your elbow, leaving your hands free to guide the fabric!

### Easy threading of the needle!

No more searching for the needle's eye. Let the needle threader do the work and start sewing!

### Perfect presser foot pressure!

Heavy or lightweight fabrics – easy adjustment gives perfect presser foot pressure for each fabric.

### Variable stitch length!

Stitch length can be set for a maximum of 6 mm.
