

VELOCITY 260IR

SENSOR AUTO CONTROL - DUAL VAPOR GENERATOR

Our most advanced iron yet, the Velocity 260IR is full of features including the sensor steam handle and 8 pre-programmed settings that put you in control to give you the ultimate ironing experience. The Velocity 260IR's patented built-in steam generator produces up to 55% more steam than traditional steam irons for perfect ironing in less time.

While traditional irons are prone to leaking and spitting, the Velocity irons use a patented 2-heating element and micro-pump technology that pre-heats the water and turns it into steam before it reaches the soleplate. The Velocity 260IR iron will give you perfect constant steam at even the lowest temperatures, yet are 100% safe for all fabrics.
